

# Practical 5

## Sprint-1

---

### Team Members:

**21BCE166 - Nikunj Jayvin Mahida**

**21BCE168 - Niti Chirag Patel**

**21BCE237 - Prisha Tushar Shah**

**21BCE253 - Richa Anilkumar Yadav**

**AIM:** To sprint retrospective, implementation and product backlog of sprint-1.

---

### DETAILS:

**Start Date :** 06/03/2024

**End Date :** 12/03/2024

**Duration :** 1 Week

**Daily Scrum Time :** 15mins

**Total User Stories :** 18

**Artifacts :** Sprint Backlog, Increment, Product Backlog

### Sprint Goal:

- Selection Page
- Login page for driver
- Registration page for driver
- Home page for driver

### Scrum Roles:

- **Product Owner:** Prisha Tushar Shah
- **Scrum Master:** Nikunj Jayvin Mahida
- **Cross Functional Team:** Richa Anilkumar Yadav, Niti Chirag Patel

## **ARTIFACT : 01**

### **SPRINT BACKLOG:**

1. As a driver, I want a selection page where I can easily identify and choose the option for "Driver" to manage fines and penalties.
2. As a police officer, I want a selection page where I can easily identify and choose the option for "Police Officer" to access law enforcement functionalities.
3. As a driver, I want to be directed to the "registration page" upon clicking "driver".
4. As a driver, I want to be directed to the login page after I have registered, so that I can log in to the portal.
5. As a driver, I want to be directed to the login page when I click "login", so that I can log in to the portal.
6. As a driver, I want to receive an error message upon entering incorrect login credentials, so that i can log in correctly.
7. As a driver, I want a "change password" button, so that I can change my password, in case I forget it.
8. As a driver, I want to receive an error message upon entering incorrect register credentials, so that I can be registered successfully.
9. As a driver, I want to be directed to the home page, so that I can do various functions.
10. As a driver, I want to have a table with violations and their respective fines, so that I can verify my challan.
11. As a driver, I want a "Fines" Button where I can view my pending fines, so that I can pay them on time.
12. As a driver, I want a "Pay fine" button in the "Payments" Button, so that I can pay my fines on time.
13. As a driver, I want a "View Receipt" button in "Payments" Button where I can view all my receipts, so that I have proof of payment.
14. As a driver, I want a "History" Button where I can view all my previous fines, so that I can keep track.

15. As a driver, I want an “Account” button where I can view my account details, so that I can view my account details and change them.
16. As a driver, I want an “Account image” button where I can view my account details, so that I can view my account details and change them.
17. As a driver, I want an “Home” Button where I can be redirected to the home page, so that I can easily reach the home page.
18. As a driver, I want to be directed to the home page upon clicking the “icon” on the top left, so that I can easily reach the home page.

## SCREENSHOTS:

## JIRA:

### 1. Sprint Backlog

The screenshot displays a Jira interface for a project named 'E\_challan'. The 'Backlog' tab is selected, showing a search bar and filters for 'NP' and 'Epic'. Below this, a sprint named 'STORY Sprint 1' is active, with 18 issues. The sprint progress bar shows 0 completed, 0 in progress, and 0 remaining tasks. A 'Start sprint' button is visible. The backlog contains the following user stories:

| Story ID | Description                                                                                                                         | Status | Assignee |

### PRODUCT INCREMENT

#### Selection Page

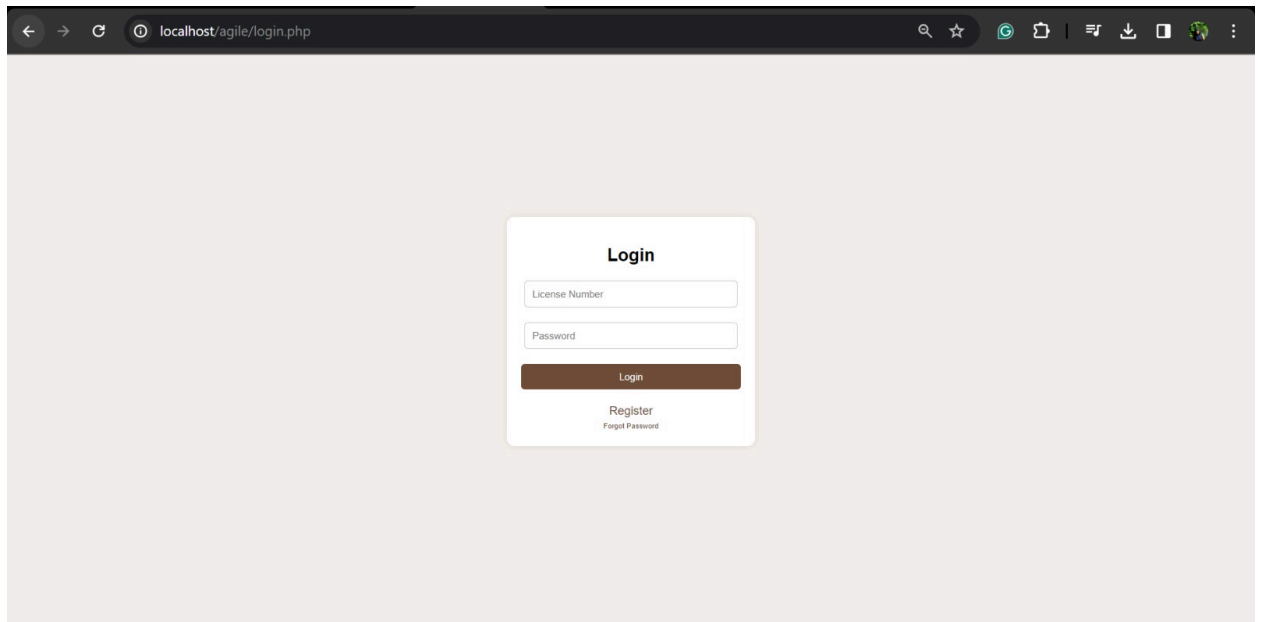

A screenshot of a web browser displaying the 'E-Challan' selection page. The browser's address bar shows 'localhost/agile/select.php'. The page has a light beige background. In the center, there is a white rounded rectangle containing the title 'E-Challan' in bold black text. Below the title are two brown rectangular buttons with white text: 'Driver' and 'Police'.

#### Registration Page for Driver:

A screenshot of a web browser displaying the 'Register' page for a driver. The browser's address bar shows 'localhost/agile/register.php'. The page has a light beige background. In the center, there is a white rounded rectangle containing the title 'Register' in bold black text. Below the title are several input fields: 'License Number', 'Password', 'Confirm Password', 'Vehicle Number', 'Name', 'Email ID', 'Age', 'Phone Number', and a file upload field with a 'Choose File' button and the text 'No file chosen'. At the bottom of the form are two brown rectangular buttons with white text: 'Register' and 'Login'.

## Login For Driver

A screenshot of a web browser displaying the login page for a driver. The browser's address bar shows the URL `localhost/agile/login.php`. The page has a light beige background. In the center, there is a white login form with a brown border. The form is titled "Login" in bold. It contains two input fields: "License Number" and "Password". Below these fields is a brown "Login" button. Underneath the button are two links: "Register" and "Forgot Password", both in a smaller, lighter font.

## Database For Driver:

The screenshot displays the phpMyAdmin interface for the 'e\_challan' database, specifically the 'Table structure' view for the 'driver' table. The table structure is as follows:

| # | Name           | Type         | Collation          | Attributes | Null | Default | Comments | Extra | Action           |
|---|----------------|--------------|--------------------|------------|------|---------|----------|-------|------------------|
| 1 | name           | varchar(255) | utf8mb4_general_ci |            | No   | None    |          |       | Change Drop More |
| 2 | email_id       | varchar(255) | utf8mb4_general_ci |            | No   | None    |          |       | Change Drop More |
| 3 | license_number | varchar(255) | utf8mb4_general_ci |            | No   | None    |          |       | Change Drop More |
| 4 | vehicle_number | varchar(255) | utf8mb4_general_ci |            | No   | None    |          |       | Change Drop More |
| 5 | phone_number   | varchar(20)  | utf8mb4_general_ci |            | No   | None    |          |       | Change Drop More |
| 6 | age            | int(5)       |                    |            | No   | None    |          |       | Change Drop More |
| 7 | pass           | varchar(255) | utf8mb4_general_ci |            | No   | None    |          |       | Change Drop More |
| 8 | pdfFile        | varchar(255) | utf8mb4_general_ci |            | No   | None    |          |       | Change Drop More |

Below the table structure, the 'Indexes' section shows a primary key index on the 'license\_number' column:

| Action           | Keyname | Type  | Unique | Packed | Column         | Cardinality | Collation | Null | Comment |
|------------------|---------|-------|--------|--------|----------------|-------------|-----------|------|---------|
| Edit Rename Drop | PRIMARY | BTREE | Yes    | No     | license_number | 1           | A         | No   |         |

**Sprint Review Date: 12/03/2024**

**Sprint Retrospective Date: 12/03/2024**

# SPRINT REVIEW

## Demonstration of Completed User Stories:

- Each completed user story was demonstrated to stakeholders. This included showcasing the implemented features and functionalities related to each user story.

## Feedback from Stakeholders:

- The password in the SQL table must be encrypted.

## Discussion on Sprint Goal Achievement:

- All sprint goals have been achieved , and the sprint was completed on time

## Discussion on Sprint Performance:

- Team faced a few problems:
  - Unable to connect to XAMPP server.
  - Traversing thru database for login verification.
- Successes achieved:
  - All sprint goals were met.
  - Team worked in harmony.
  - Sprint was completed on time.
- Opportunities for improvement
  - Encryption of password in database

## Product Backlog Refinement:

- Product backlog was updated, and stakeholders inputs we added

## Burn down chart creation:

- Burn down chart was created upon sprint completion

## **ARTIFACT : 03**

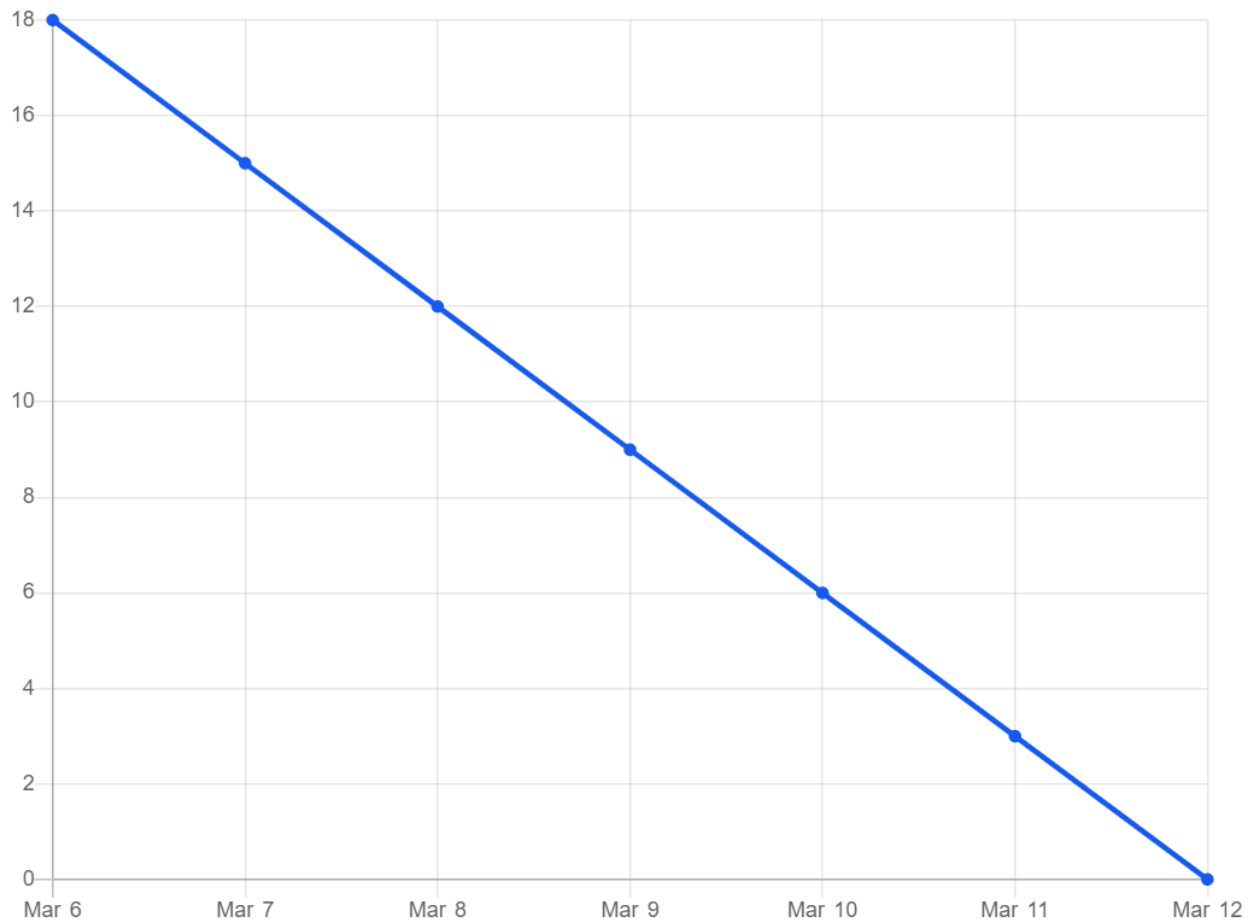

### **PRODUCT BACKLOG:**

- As a Police Officer, I want to be directed to the “registration page” upon clicking “Police”.
- As a Police Officer, I want to be directed to the login page after I have registered, so that I can log in to the portal.
- As a Police Officer, I want to receive an error message upon entering incorrect login credentials, so that i can log in correctly.
- As a Police Officer, I want to receive an error message upon entering incorrect register credentials, so that I can be registered successfully.
- As a Police Officer, I want to be directed to the home page, so that I can do various functions.
- As a Police Officer, I want to have all buttons of navbar, so that I can easily navigate.
- As a Police Officer, I want a “Generate Fines” Button so that I can generate fines.
- As a Police Officer, I want a “Receipt” button where I can view all receipts, so that I have proof of payment.
- As a Police Officer, I want a “License Card” Button where I can view all the license cards, so that I can keep track.
- As a Police Officer, I want an “Account” button so that I can view my account details.
- As a Police Officer, I want an “Account icon” button so that I can view my account details and change them.
- As a Police Officer, I want an “Home” Button so that I can easily reach the home page.

- As a Police Officer, I want to be directed to the home page upon clicking the “icon” on the top left, so that I can reach the home page.
- As a Driver, I want to view a list of all past challans issued to me in the Fine option so that I can keep track of any pending fines.
- As a Driver, I want to be able to view Pay fines related options in the Pay Fines option.
- As a Driver, I want to be able to view all my pending challans so that I can keep track of my fines.
- As a Driver, I want to be able to access view receipts so that I can see all the receipts of the total number of challans issued in my name.
- As a Driver, I want to view a list of all past challans issued to me in the history option so that I can keep track of any pending fines.
- As a Driver, I want to get redirected to my Accounts page when I click on Accounts.
- As a driver, I want to be able to be notified of any fines, so that I can pay them accordingly.
- As a police officer, I want to generate fine slips, so that I can keep a record.
- As a police officer, I want to send fine slips, so that they are made available to the driver.
- As a police officer, I want to set overall time limits for paying fines, so that penalty slips can be generated.
- As a driver, I want to be notified of any penalty slips generated, so that I can pay them accordingly.
- As a driver, I want a secure payment gateway integrated into the system so that I can ensure the safety of my payment transactions.
- As a driver, I want to download receipts of payments so that they can be recorded.
- As a driver, I want to send a query about my violation, so that I am not wrongly charged.

- As a police officer, I want to receive notifications of complaints, so that I can respond to them as soon as possible.
- As a police officer, I want to reply to the query so that the user can get notified about any changes.
- As a police officer, I want to be able to update slips so that the user can get the updated slips.
- As a driver, I want to receive notifications for updated slips so that I can pay them accordingly.

# **SPRINT RETROSPECTIVE MEETING**

## **Purpose**

- To reflect on the past sprint and identify areas for improvement.

## **Review the Sprint**

- Together, we review the outcomes of the previous sprint, discussing completed user stories, challenges faced, and the overall achievement of our sprint goal.

## **Identify What Went Well**

- We discuss and acknowledge the aspects of the sprint that went well, celebrating our successes and recognizing effective collaboration or implementations.

## **Identify What Didn't Go Well**

- We openly discuss any challenges or obstacles encountered during the sprint, such as communication issues, technical difficulties, or dependencies that impacted our progress.

## **Generate Insights**

- We reflect on the root causes of the challenges and share insights gained from our sprint experience, analyzing patterns in the issues we faced.

## **Generate Improvement Actions**

- Together, we brainstorm actionable improvement items aimed at addressing the identified challenges and enhancing our team's performance in future sprints.

### **Prioritize Improvement Actions:**

- We prioritize the improvement actions based on their perceived impact and feasibility, using techniques like dot voting to identify the most important actions.

### **Assign Responsibility**

- We assign responsibility for implementing each improvement action to specific team members, ensuring accountability and ownership for driving the improvements forward.

### **Document the Retrospective**

- I document the outcomes of our retrospective meeting, including the identified improvement actions and their assigned responsibilities, to serve as a reference for tracking progress.

### **Close the Meeting:**

- We conclude the retrospective meeting with a recap of our key takeaways and a commitment to continuous improvement. I also solicit feedback on the retrospective process itself to ensure its effectiveness.
